ABOUT ME

I am a Software Engineer proficient in JavaScript, Tailwind CSS, React.

I completed the responsive web design on freeCodeCamp, studied and practiced JavaScript algorithms and data structure on freeCodeCamp.

I am passionate about building user-friendly, accessible and scalable web apps. Currently enrolled into the ALX software engineering programme.

I love a good challenge, so contact me for freelance and full-time roles. I am open to working in an environment that fosters growth and critical thinking
